

NINTH ISLAND

TASMANIA

2011 SAUVIGNON BLANC

INTRODUCTION

Ninth Island, although often shrouded by ocean mists, is visible from our Pipers Brook vineyards in northern Tasmania. The island's name has been used for our range of fresh, early drinking varietal wines that capture the distinctive cool-climate flavours and nature of Tasmania. An Island of untouched beauty, only 32 hectares in size, is a wildlife haven for both marine and birdlife that choose to take refuge on this pristine coastal Island.

SEASON

The 2011 growing season was characterised by almost perfect conditions for flowering and fruit set, followed by long warm summer ripening days in the season. As a result of well balanced vines, the small bunches and berries have contributed to our Sauvignon Blanc achieving full flavour ripeness with soft expressive tropical aromatics and only subtle underlying herbaceous tones distinctive of the variety grown in a cool climate.

SOIL

The grapes were grown on a mixture of the Brown Chromosol and Vertosol soils (Black Cracking Clays) of our Tamar Valley vineyards. Both soil types have excellent water holding capacity, offering a steady supply of moisture and nourishment to the vines throughout the growing season.

VITICULTURE

Sauvignon Blanc is perfectly suited to cool maritime climate of northern Tasmania and the banks of the Tamar River; our vineyards consistently achieve good fruit flavours and varietal balance. The grapes were harvested in late April from medium cropping vines, these vines are cane pruned and grown on Vertical Shoot positioned trellis, which helps to expose the ripening bunches to the sun, thus achieving full ripeness and well-balanced flavours.

WINEMAKING

Our aim in the winemaking of this style is to preserve and maximise all the natural, cool climate flavours and aroma's distinctive to Sauvignon Blanc from our wine region in northern Tasmania, by expressing all the rich and ripe tropical nature of the variety, with its balanced underlying soft herbaceous tones. The grapes are cold harvested at night and carefully de-stemmed then crushed using full protective handling techniques that avoid any juice oxidation or browning, hence protecting the natural vibrant flavours. The juice is then brightly clarified and fermented very slowly at cool temperatures in our stainless steel vats. To maximise the retention of aromatics, the resultant wine is then bottled early under screwcap, producing a style that is intensely aromatic, fruit driven with a well-integrated crisp acid cleansing finish.

Analysis: Alcohol: 13.0% Titratable acidity: 8.3 g/L pH: 3.10

TASTING NOTES

Colour: Pale lemon-lime hue

Bouquet: A lifted floral bouquet of lilies, hints of oyster shells, the sweet aroma of snow peas. The perfume is rich and elegant; tones of a fresh fruit salad with gooseberry, green pineapple, honey dew, and finishing with a confectionery lift, and the sweet grassy aroma of dill.

Palate: Medium bodied, well-balanced and soft structured palate, the flavours are long and flowing, with expressive lush tropical fruits flavours, lemon-lime, passion fruit and sweet baby corn, all nicely balanced by varietal savoury notes and the fresh crisp cleansing acid, which provides tightness to the finish, whilst the fruit remains delicate and lingering.

Ageing potential: Likely life span to 2013 with optimal year 2011/12

Food suggestions: A Sauvignon Blanc made for your enjoyment, drinks extremely well on its own, yet versatile enough to match with a wide array of different appetizers & cuisine: antipasto platters, summer salads, grilled pork loin, fried goats cheese salad with cranberries, spicy Mexican dishes, spring vegetable and seafood stir-fry's, pasta's, curries, salsas; Pan-seared scallops, risotto of lobster with sea vegetables, shellfish, freshly shucked oysters(Enjoy this wine with your favourite food match)
